

## **CNtoU TRIPOD FOR MC-750 AND JPC-12**

<https://chelegance.com/products/tripod-for-mc-750-and-jpc-12/>

### **1-1. DESCRIPTION & SPECIFICATION**

The Tripod with M10 Adaptor is the perfect solution for supporting your MC-750 or JPC-12 antenna, especially when the ground is too hard for the antenna's spike to drive into. The tripod is compact and easy to set up and fold down, making it the ideal choice for those who need to carry it around for POTA/SOTA. It is suitable for a variety of outdoor activities and emergency communication needs.

And the tripod is lightweight and compact, making it easy to carry with you on the go. This makes it a great choice for field work, outdoor events, and other situations where you need a portable, sturdy support for your antenna.

### **1-2. PART LIST**

- 1 X TRIPOD
- 1 X 1/4 TO 3/8 ADAPTOR
- 1 X 3/8 TO M10 ADAPTOR

### **1-3. INSTALLATION GUIDE**

Simply connect the antenna to the M10 end of the adaptor, which is connected to the tripod, for stable support.

To better protect threads for the antenna base, it is recommended to use the tripod with the supplied 2 adaptors connected together and the MC-750 or JPC-12 antenna connected to the M10 end of the adaptor. However, the 1/4 to 3/8 adaptor can also be used directly with the antenna.
